HONORS THESIS PROPOSAL

Name: ___________________________  Graduating Class: __________

Thesis Advisor: ___________________________________________________________

To satisfy your Honors Thesis requirement, you must register for BE 5998 and submit a written paper (minimum of 20 pages) based on an experimental, analytical, or literature-based research paper on a topic related to biomedical engineering. Please describe your intended project below, have your Thesis Advisor sign to indicate approval, and submit for Departmental approval. This must be done before registering for BE 5998.
