Tenure-Track Faculty Position in Structures

The Wayne State University (WSU) Department of Civil and Environmental Engineering (CEE) invites applications for a full time tenure-track faculty position in structures starting August, 2016 at the assistant or associate professor level. The selected candidate is expected to teach undergraduate and graduate courses in structures, establish an active, externally funded research program, and pursue professional service activities. The ability to conduct collaborative research efforts with other CEE and university faculty is expected. Candidates must have an earned Ph.D. degree in civil engineering at the time of appointment, and an undergraduate civil engineering degree from an ABET-accredited program is preferred. The ability to obtain registration as a Professional Engineer (PE) is preferred.

The WSU main campus is located in the vibrant Midtown section of Detroit, where an excellent selection of museums, galleries and theaters are within walking distance. The campus encompasses 203 acres of landscaped walkways and gathering spots, linking 100 education and research buildings. The greater Detroit area supports a large variety of civil engineering activities sponsored by industry as well as government sources, such as Michigan DOT, and is home to a large and active structural engineering community. WSU is one of the nation's pre-eminent urban research universities, one of only a few holding both the Carnegie "Very High Research" and "Community Engagement" designations. Wayne State's 11 schools and colleges offer more than 350 major subject areas to our 33,000 graduate and undergraduate students. The Department has 11 full time faculty and about 220 students pursuing B.S., M.S., and Ph.D. degrees. More information on the Department can be found at http://engineering.wayne.edu/cee/.

Applicants must apply through the University's online hiring system at https://jobs.wayne.edu (click “Search Postings” and enter Posting Number 041357). The application package should include a cover letter, curriculum vitae, statements of research and teaching interests, and a list of references. For further information, please contact Chris Eamon, Chair of the CEE Search Committee, at eamon@eng.wayne.edu or 313-577-3766. Review of applications will begin immediately and continue until the position is filled. Candidates from groups underrepresented in engineering are strongly encouraged to apply. Wayne State University is an equal opportunity employer.
