Seminar Course Syllabus  
Fall 2016

Instructor/Coordinator contact information: Prof. Guangzhao Mao, 1103 Engineering (office), 313-577-3804 (phone), ad5223@wayne.edu (electronic mail).

Course Objectives:

1. Students will develop an understanding of current issues and current research areas in chemical engineering including focus areas of nanoengineering and sustainability.
2. Students will develop awareness of professional and career awareness in these research and technology areas.
3. Students will develop an understanding of the role of graduate education, continuing professional development, and life-long learning in chemical engineering and nanoengineering practice.
4. Students will develop skills in written communications by submitting a summary report.

There are two requirements for these seminar courses:

1. Attendance
   You are required to attend the scheduled seminars. A sign-up sheet is located at the entrance to the Welcome Center Auditorium. Please sign your name on the class-list.

2. Memorandum
   Students must submit a memorandum on or before the deadline. The memorandum should include a paragraph about each attended seminar. Students are required to comment on the significance of the topic, the speaker’s presentation style, and the technical content of the seminar.

Grading:
You will receive S (satisfactory) if you meet these two requirements.
Otherwise, you will receive U (unsatisfactory).

The deadline for submitting the memorandum is: December 9, 2016. Submit your memorandum electronically via the Blackboard memorandum submission link.
