Course Description:
This course is an introduction to the fundamentals of programming using Java. Topics include object-oriented programming, classes, constructors, flow control statements, data types, methods, inheritance, data hiding, abstraction, exceptions, file I/O, Java GUI, and Java packages.

Credit Hours:
3

Prerequisites:
CSC 1100 and CSC 1101, each with grade of C or better, and MAT 1800 with grade of C- or better.

Co-requisites:
None.

Textbook:
Java How to Program, Early Objects, plus MyProgrammingLab, Tenth Edition, Paul Deitel, Harvey Deitel

Course contents:
Introduction to Java Applications; Input-output and Operators
Introduction to Classes, Objects, Methods and Strings
Control Statements
Methods
Arrays and ArrayLists
Classes and Objects
Object-Oriented Programming: Inheritance
Object-Oriented Programming: Polymorphism and Interfaces
Exception Handling in Java
Java GUI Components
Graphics and Java 2D
Strings, Characters and Regular Expressions
Files, Streams and Object Serialization
Generic Collections
Generic Classes and Methods

**Laboratory:**
NA

**Course Learning Objectives:**
The course learning objectives are skills and abilities students should have acquired by the end of the course. Upon successful completion of this class, the student will be able to:

**Grading Policies:**
- On-time homework: a homework is on-time if it is submitted via Blackboard by 9am on the day it is due.
- Late homework: a homework is late if it is submitted via Blackboard between:
  - 9am on the day it is due, and
  - Two days later at 11:59pm.
A late homework will be marked down 20%.
- Too-late homework: a homework will not be accepted after the late application period.

**Religious Holidays:**
Because of the extraordinary variety of religious affiliations of the University student body and staff, the Academic Calendar makes no provisions for religious holidays. However, it is University policy to respect the faith and religious obligations of the individual. Students with...
classes or examinations that conflict with their religious observances are expected to notify their instructors well in advance so that mutually agreeable alternatives may be worked out.

**Student Disabilities Services:**
- If you have a documented disability that requires accommodations, you will need to register with Student Disability Services for coordination of your academic accommodations. The Student Disability Services (SDS) office is located in the Adamany Undergraduate Library. The SDS telephone number is 313-577-1851 or 313-202-4216 (Videophone use only). Once your accommodation is in place, someone can meet with you privately to discuss your special needs. Student Disability Services' mission is to assist the university in creating an accessible community where students with disabilities have an equal opportunity to fully participate in their educational experience at Wayne State University.
- Students who are registered with Student Disability Services and who are eligible for alternate testing accommodations such as extended test time and/or a distraction-reduced environment should present the required test permit to the professor at least one week in advance of the exam. Federal law requires that a student registered with SDS is entitled to the reasonable accommodations specified in the student’s accommodation letter, which might include allowing the student to take the final exam on a day different than the rest of the class.

**Academic Dishonesty - Plagiarism and Cheating:**
Academic misbehavior means any activity that tends to compromise the academic integrity of the institution or subvert the education process. All forms of academic misbehavior are prohibited at Wayne State University, as outlined in the Student Code of Conduct ([http://www.doso.wayne.edu/student-conduct-services.html](http://www.doso.wayne.edu/student-conduct-services.html)). Students who commit or assist in committing dishonest acts are subject to downgrading (to a failing grade for the test, paper, or other course-related activity in question, or for the entire course) and/or additional sanctions as described in the Student Code of Conduct.

- **Cheating:** Intentionally using or attempting to use, or intentionally providing or attempting to provide, unauthorized materials, information or assistance in any academic exercise. Examples include: (a) copying from another student’s test paper; (b) allowing another student to copy from a test paper; (c) using unauthorized material such as a "cheat sheet" during an exam.
- **Fabrication:** Intentional and unauthorized falsification of any information or citation. Examples include: (a) citation of information not taken from the source indicated; (b) listing sources in a bibliography not used in a research paper.
- **Plagiarism:** To take and use another’s words or ideas as one’s own. Examples include: (a) failure to use appropriate referencing when using the words or ideas of other persons; (b) altering the language, paraphrasing, omitting, rearranging, or forming new combinations of words in an attempt to make the thoughts of another appear as your own.
- **Other** forms of academic misbehavior include, but are not limited to: (a) unauthorized use of resources, or any attempt to limit another student’s access to educational resources, or any attempt to alter equipment so as to lead to an incorrect answer for subsequent users; (b) enlisting the assistance of a substitute in the taking of examinations; (c) violating course rules as defined in the course syllabus or other written information provided to the student;
(d) selling, buying or stealing all or part of an un-administered test or answers to the test;  
(e) changing or altering a grade on a test or other academic grade records.

Course Drops and Withdrawals:
In the first two weeks of the (full) term, students can drop this class and receive 100% tuition and 
course fee cancellation. After the end of the second week there is no tuition or fee cancellation. 
Students who wish to withdraw from the class can initiate a withdrawal request on Pipeline. You 
will receive a transcript notation of WP (passing), WF (failing), or WN (no graded work) at the 
time of withdrawal. No withdrawals can be initiated after the end of the tenth week. Students 
enrolled in the 10th week and beyond will receive a grade. Because withdrawing from courses 
may have negative academic and financial consequences, students considering course withdrawal 
should make sure they fully understand all the consequences before taking this step. More 
information on this can be found at: 
http://reg.wayne.edu/pdf-policies/students.pdf

Student services:
• The Academic Success Center (1600 Undergraduate Library) assists students with content 
in select courses and in strengthening study skills. Visit www.success.wayne.edu for 
schedules and information on study skills workshops, tutoring and supplemental 
instruction (primarily in 1000 and 2000 level courses).
• The Writing Center is located on the 2nd floor of the Undergraduate Library and provides 
individual tutoring consultations free of charge. Visit http://clasweb.clas.wayne.edu/ 
writing to obtain information on tutors, appointments, and the type of help they can 
provide.

Class recordings:
Students need prior written permission from the instructor before recording any portion of this 
class. If permission is granted, the audio and/or video recording is to be used only for the student’s 
personal instructional use. Such recordings are not intended for a wider public audience, such as 
postings to the internet or sharing with others. Students registered with Student Disabilities 
Services (SDS) who wish to record class materials must present their specific accommodation to 
the instructor, who will subsequently comply with the request unless there is some specific reason 
why s/he cannot, such as discussion of confidential or protected information.
