ALL for One and One for ALL!

It is that time of year again, with fall battling summer for its place in the year and the sun playing hide and seek with the rain. And the initiates are here and Welcome!

Welcome initiates, who are armed with packed folders and rough-textured Bents. Join us, as we prepare to give advice (please polish your Bent now, not later. Procrastination doesn’t quite work as effectively with it as it may with homework assignments) and have fun!

With a meeting full of interesting ideas and ridiculous questions, it is time for even more Ludacris responses, all in good fun! Take time to sit back, relax, and enjoy the meeting as we meet you all with food, fun, and at the end, some LASER TAG!
Happy Birthday!

Here, have a frustrating Logic Puzzle. Supposedly, this is very difficult and will take a ton of time to solve...perfect for GBM!

There are 5 houses each with a different color. Their owners, each with a unique heritage, drinks a certain type of beverage, smokes a certain brand of cigarette, and keeps a certain variety of pet. None of the owners have the same variety of pet, smoke the same brand of cigarette or drink the same beverage.

Clues:

- The Brit lives in the red house.
- The Swede keeps dogs as pets.
- The Dane drinks tea.
- Looking from in front, the green house is just to the left of the white house.
- The green house's owner drinks coffee.
- The person who smokes Pall Malls raises birds.
- The owner of the yellow house smokes Dunhill.
- The man living in the center house drinks milk.
- The Norwegian lives in the leftmost house.
- The man who smokes Blends lives next to the one who keeps cats.
- The man who keeps a horse lives next to the man who smokes Dunhill.
- The owner who smokes Bluemasters also drinks beer.
- The German smokes Prince.
- The Norwegian lives next to the blue house.
- The man who smokes Blends has a neighbor who drinks water.

Who owns the pet fish?

Adventures of Polymer Bob – Serial Pt. 2

We last saw polymer Bob as he had escaped the iodine lake as he went on his quest to learn how to fly (see Local Bent #1). We continue where he left on.

As he moved on, beyond the boundaries of the insidious iodine lake, a shadow fell upon him, slowing growing larger and larger. He tried to move but he was too heavy and lamenting his bound state, he was awaited his demise. However, as the shadow grew bigger around him, a rain of red drops followed. It was blood, a mixture most deadly as it contained so many enzymes and hormones just waiting to pounce.

This was his second test, he knew, as he was slowly subsumed into the mass of glinting red liquid. Within in polymer bob was immediately faced by the sharks of insulin. These sharks evolved from lancelets, delivered via these creatures and set out to capture and subdue the glucose riffraff partying within the blood. Amidst the insulin, polymer bob roamed with caution, treading carefully and hiding behind oxygenated hemoglobin molecules when possible, as the polypeptides were very large and complex – the perfect disguise. He knew he wasn’t that big and impressive... because he was dropped on his head when he was younger and lost a few mers as a result, a fact that most of his brethren had ragged and as a result, spurred his desire to fly. As he snuck along, he weaved and bobbed within the hemoglobin but a sudden shake of blood resulted in a strait most dire. The blood was being sucked up and out into a clear vial, the last resting place of any living polymer. He had heard the stories and he knew, a revolution was on the horizon.

To be continued...
Have a brain! Not to eat, but to traverse its mysterious paths. Try finding your way through the human mind for a change, instead of it finding a way to control you…

For bonus points, label the different parts of the brain and what they do? (Be creative, accuracy is overrate! Submit answers to the rec sec for a goldfish).

Round Robin Tests

During the round robin, have some fun:

10 Pts. – Make an allusion to Monty Python

15 Pts. – Express your opinion on the new Star Wars…

20 Pts. – Do a specialized fist bump (i.e. explode, squid, etc.)

50 Pts. – Dance a jig
CAPTION THIS!

A throwback idea from old Bents, I have restarted the What AM I Thinking? Contest from 1994, to create laughs and funs during the course of the meeting.

Our erstwhile President Brien Dux receiving Scotch as a farewell present for his service.

Procedure: Observe the picture above, with former President Brien Dux showing his delight as his gift of scotch. Then notice our beloved Tonya to his left (right from our point of view, but directions, who needs them?).

Her evocative face already speaks volumes but try putting some words to match her expression!

Submit entries by passing Bents to the RecSec, emailing entries to rsec.mie.tbp@gmail.com (preferably with accompanying comics → bribery is nice in the form of comics) or in the vacant mailbox of the rec sec past the many cobwebs that have made their home by OCTOBER 20th.

WINNER → Funniest, most innovative caption will be honored in subsequent local Bents!          GOOD LUCK ONE AND ALL!

Still Bored? → Take the last page, with the map that you don’t need because you obviously know where to go (maps, who needs maps when you can just get lost and have adventures), and create a masterpiece. Paper Airplanes, sculptures, snow flakes, all are welcome. Alternatively, create confetti (but you will be cleaning it up).
