

WAYNE STATE  
College of Engineering

Robert J. Sokol Endowed Chair in Systems Biology,  
Professor, Computer Science

*Computational Biology, Bioinformatics, Machine Learning*

**Sorin Draghici**

Distinguishing between aggressive and non-aggressive  
cancer based on data integration

Research areas:

- Analysis of biological pathways
- Data integration
- Disease subtype discovery
- Biomarker discovery

Funded by:

- National Science Foundation
- National Institutes of Health
- 8.3 million as PI, 29.8 million as co-PI

Major contributions:

- 2 single-author book  
(<https://tinyurl.com/ydy398ot>)
- More than 150 scientific papers with  
over 10,000 Google Scholar citations
- H-index of 46 (Google Scholar)
